PREFACE

The Table of Cases, analyzed from the opinion of the Court and published as a serial, thus avoiding pasters and supplements, will without doubt be appreciated by the busy lawyer.

A brief catch word or phrase gives the subject matter of each case cited, and economizes the lawyer's time in tracing the citations upon his subject of investigation. The bold-face type gives the beginning page of the case cited. The ordinary abbreviations are placed at the bottom of each page.

These tables show the determination of all the cases in the New York Court of Appeals, and the subsequent citations in all the Courts of Record in this State.

This and succeeding issues are sold with the express agreement that the subscriber will destroy previous issues.
